

Sprint 1 Report

What did we get done?

- Basic definitions of Users, Topics, and Posts
- Setting up the database
- Having a working, hosted server that interfaces with the database
- Creating a login/sign-up interface which has basic validation

What is working?

- Slack
- GitHub
- Google Hangouts
- Cloud 9
- Ruby on Rails

What isn't working?

- So far the online meetings via google hangout haven't had full attendance.
- Not meeting enough (a few don't make meetings)

Suggestions (to each other)

- More concise scrum reports
 1. What functionality you actually got done
 2. What you were doing to make progress
- More communication
 1. Ask question that has value
 2. Be more willing to dispense knowledge
 3. Don't
- Be more proactive/active

Burnup Chart (As of Sprint 1)
